SUZOHAPP shortlisted for 'Casino Supplier of the Year' at Global Gaming Awards London 2018

SUZOHAPP is pleased to be shortlisted in the category 'Casino Supplier of the Year' at the Global Gaming Awards London 2018. The Global Gaming Awards, now in their fifth year, will be heading to London for the very first time, with a nomination panel filled with industry experts and judges from every sector of the gaming industry. Winners will be announced during the awards ceremony at the Hippodrome Casino in London on Monday, February 5th.

"This is very positive news. We are proud to have been nominated as a finalist in this key category," commented Goran Sovilj, Executive Vice President of Gaming & Amusement EMEA. "We place great emphasis on serving the casino market directly and have service and sales staff who work very closely with casino operators throughout the world."

The number of SUZOHAPP solutions for casino operators has consistently increased over recent years and these solutions will be taking center stage in the SUZOHAPP stand at ICE. "This recognition means a great deal. It shows that our strategy to directly support casino operators is paying dividends and, more importantly, is highly valued by casino operators themselves. We are looking forward to a special evening at the Hippodrome and hope that we can start the ICE with a bang," added John Vallis, Vice President of Gaming & Amusement EMEA.
