

## SUZOHAPP BRINGS INNOVATIONS TO EAG 2022

London, UK, February 22, 2022 — SUZOHAPP will be exhibiting at EAG International Expo which returns to ExCeL London as a face-to-face event from 1<sup>st</sup> to 3<sup>rd</sup> March 2022. EAG 2022 is the leisure industry's leading coin-operated amusements show and a great opportunity to see the latest developments in amusement technology and network with fellow professionals.

At this year's event, SUZOHAPP will be showcasing a wide array of amusement products including both individual components and complete solutions. Products such as redemption tickets and tokens, change machines, note/coin counters and billiard products will be highlighted in particular. SUZOHAPP will be also displaying its broad range of components for OEMs, such as coin and banknote validators, printers, hoppers, monitors and push buttons, just to name a few.

As a major innovation, SUZOHAPP will be launching its new Cash Redemption Terminal (CRT) which provides a fast and easy self-service pay out for players. Also new this year is the Dual Change Cashless, a new contactless change machine. This latest changer addresses the requirement for contactless payments in arcades and Bingo as consumer spending habits have shifted over the last few years.

"SUZOHAPP has served the amusement industry as a trusted hardware partner for over 30 years. We are experts here with our in-depth knowledge and expertise to help OEM's design solutions for their amusement centers. We also offer one of the broadest portfolios in the industry of aftermarket replacement parts. Just about anything you need, we can source it!" said Tim Kennedy, Vice President of Sales for Europe.

SUZOHAPP invites all attendees to visit its booth #95 to learn more about its latest innovations.

###

#### About SUZOHAPP

SUZOHAPP is a world leader in the manufacturing and distribution of gaming, amusement, and sports betting products. Serving operators and OEMs for over 60 years, SUZOHAPP carries a vast portfolio of components available for immediate distribution and for developing custom built solutions.
